

Al-Zahraa Shaban El-Sayed

Full Stack .Net Developer

+201095296159 | Minya, Egypt

[✉ alzahraashaban702@gmail.com](mailto:alzahraashaban702@gmail.com) | [in LinkedIn](#) | [GitHub](#)

Profile

Full Stack .Net Developer with skilled in building scalable web applications using .NET Core, C#, and Angular. Proficient in front-end technologies (HTML, CSS, JavaScript) and back-end development with SQL Server and APIs. Experienced with Clean Architecture, Git, and Agile methodologies. Strong foundation in OOP, data structures, and problem-solving. Committed to continuous learning, quality code, and effective teamwork in dynamic environments

Experiences

- **Tour Booking System (freelance) – [Demo](#)** 6/2025
 - Built a full-stack travel booking system that manages tours, transfers, and packages with detailed itineraries, highlights, inclusions, exclusions, and schedules
 - Implemented admin dashboard for creating and managing tours, while customers can view tour details, check availability, and book without registration.
 - Developed backend using ASP.NET Core with a generic repository and service layer (AutoMapper + DTOs), and SQL Server relational database with full ERD structure.
 - Frontend built in Angular, featuring tour detail pages, location tabs, booking forms, and dynamic UI with real-time data binding.
 - **Tools:** ASP.NET Core, Angular, SQL Server, AutoMapper, Entity Framework Core
- **Software Instructor at Almentor Company** 07/2024-Present
 - Delivered engaging lessons in Scratch, Blockly, and MIT App Inventor
 - Created project-based learning using RoboMind and PictoBlox
- **Programming Engineer (Teacher) at Smart Technology School** 10/2023-05/2024
 - Delivered interactive lessons in programming and electronics to 200+ students.
 - Ranked top instructor based on student feedback and performance.

Internships

- **ITI (Information Technology Institute) – Full Stack .NET Track** 11/2024-4/2025
 - **Invest Bekia Project (freelance)**
 - Built a web application for a business that exchanges scrap for land shares. The system allows users to request scrap pickup through a representative, manages share distribution, and sends real-time notifications to the admin for tracking and approvals.
 - **Tools:** ASP.NET Core, Angular, SQL Server
 - **Digital Note Manager – [GitHub](#)**
 - Developed a lightweight note management app with user authentication, categorization, reminders, and rich text editing. Implemented Clean Architecture for maintainability.
 - **Tools:** C#, Windows Forms (WinForms), Entity Framework, LINQ
 - **Online Examination System for ITI – [GitHub](#)**
 - Built an online exam platform with schedule management, SQL authentication, and optimized queries for fast access. Designed ERD and Database Mapping for efficiency.
 - **Tools:** SQL Server, Draw.io.
 - **E-Commerce Website – [GitHub](#)**
 - Created an e-commerce platform with product browsing, search, purchasing, and admin dashboard for product management.
 - **Tools:** HTML, CSS, JavaScript.
- **Online Diploma – Frontend Web Development with React** 9/2024-4/2024
 - Design web pages using HTML, CSS, JavaScript.

- **NTI (National Telecommunication Institute) – Internet of Things (IoT) | 1 Month (180 Hours)**
 - Studied AI, data analysis, model training & validation

Education

- **Bachelor of Computer and Systems Engineering – Minya University | 06/2023**
 - Grade: Very Good with Honors | 82%
 - **Graduation Project: Sign Language Recognition System for Deaf People** using AI (Grade: Distinct) – [Demo](#)
 - Developed a real-time Arabic sign language translator using Python, Mediapipe
 - Built a system to convert spoken Arabic spoken language into sign language using Speech Recognition and MoviePy libraries
 - **Financial System Project – [GitHub](#)**
 - Developed a charity fund management system for salary distribution and expense tracking using Agile Scrum methodology.
 - **Tools:** C#, Database Server, Agile Scrum
 - **ATM Machine Project – [GitHub](#)**
 - Created and Implemented an ATM system with features like deposit, withdrawal, balance inquiry, and password change.
 - **Tools:** C#, Database Server.

Skills

- **Programming Language**
 - C#, C, Python
- **Frontend Development**
 - Angular (+17), Typescript, JavaScript, ES Next, HTML5, CSS3, Bootstrap, Responsive Design, UX Design
- **Backend Development:**
 - MVC, ASP.Net, ASP.Net Core, WebAPI, MS SQL Server, Entity Framework, LINQ
- **Computer Science**
 - Object-Oriented-Programming (OOP), Unit Testing, Data Structures, Algorithms, Design Patterns, SOLID Principle, Clean Architecture, Network, Computer Architecture, Operating System
- **Tools:**
 - Visual Studio Code, Git, GitHub, Trello, Proteus, CodeBlocks, Arduino IDE, Canva, Microsoft Office
- **Educational Tools**
 - Scratch, Blockly, RoboMind, MIT App Inventor, PicToBlox
- **Soft Skills**
 - Agile/Scrum Methodologies, Problem Solving, Communication, Teamwork, Adaptability, Critical Thinking, Fast-learning ability

Courses

- **Behavioral Design Patterns – Almentor | 02/2025**
- **UX Design Fundamentals – Mahara-tech | 02/2025**
- **Data Structure and Algorithm Specialization – Almentor | 02/2025**
- **Internet of Things (IoT) – National Telecommunication Institute | 09/2023**
- **Dot Net Full Stack – Information Technology Institute | 07/2023**
- **Embedded Systems – 3lmany Academy | 02/2022**

Extracurricular Activities

- **10 Top Stars – Almentor Company |2025**
- **Team Leader /Best Member** in Social Media Team – OMK | 2020-2021
- **Best Member** in Logistic Team – IEEE | 2021
- **Best Member** in PR Team – ICE | 2020-2021
